The Government Contractors Benefit Cooperative

An idea whose time has come.

The idea of a Cooperative has been around for several years as a way to bring together like groups for the purpose of saving money on employee benefits.

The Government Contractors Benefit Cooperative (GCBC) was designed for you and members of the 8(a) Association to maximize the collective purchasing strength of the Association and allow you to deliver superior benefits at the best available price.

By joining the GCBC, you support the 8(a) program by combining with other 8(a) businesses. Based on years of experience with 8(a) contractors, we have been able to create a large group of highly desirable members that insurers aggressively compete for. The bottom line to you is better benefits at better prices.

Technology at work for you

CONNECTING YOU TO THE RESOURCES YOU NEED

Your success as a contractor hinges on your ability to reduce administrative costs and enhance productivity. Paying the DOL fringe as a “cash wage” not only costs you money but costs you quality employees. In today’s labor environment it is harder to recruit and retain skilled employees without a meaningful benefits package. As government reviews healthcare reform, it may in fact become a business requirement. The GCBC has developed a one-stop shop for your benefits and allows you to offer real benefit plans and

supplemental coverage through fully qualified programs. Through our partnership with RJM Financial, insuring compliance has been done for you and the complexities of government contracting eliminated. Using state-of-the-art technology, the GCBC allows you to focus on your business and the business of being successful.

BENEFITS SOLUTIONS

Take a quick look at the news today and you will see numerous discussions about Cooperatives, Associations and Purchasing Pools. Consumers have known for years that there is strength in numbers. Now our legislatures recognize that the time has come to allow for groups to come together and purchase benefits.

The GCBC has been ahead of this trend and celebrated its third anniversary in 2009. The strength of the Cooperative has been its members. Davis-Bacon Act and Service Contract Act employers are unique. For numerous reasons, risks associated with these contractors are more favorable than average. Many contracts require DOT drug testing, physical examinations, government security clearances – all of which create a situation where employees have a much more attractive risk profile.

By combining these favorable attributes into the GCBC, we capitalize on these strengths and offer great benefits and stable prices. In today’s benefit market, your are thrown into a “community pool” and suffer the same rate hikes as non-contracting groups with greater risk.

Take charge of your benefit package today by joining the GCBC.

A WIDE SELECTION OF PLANS PROVIDES A TOTAL END TO END SOLUTION.

GROWTH IS KEY!!!

When the Cooperative was first established a goal was set that once enrollment reached 1500 employees, that rates would be based on 100% of the Cooperatives claims history.

The GCBC is well on its way toward meeting that goal but needs your support.

This is your Cooperative!
The design and plans were built for you and fellow members of the 8(a) Association. Help by joining the GCBC today!

Plans are reviewed annually by the independent Board of Directors of the GCBC. Our Board is made up of local contractors who know how unique government contracting can be. This is your opportunity to take control of your benefit plan. Please contact us today for more information.
